

Printed matter can be provided with a printed serialization (no stamp). For this purpose, there must be a sufficiently large, unprinted (white) field on the respective printed matter.

We offer serialization with up to 10 or up to 15 characters.  
(Space counts as a character.)

Serialization up to 10 characters:

Serialization up to 15 characters:

The serialization field can be placed anywhere. However, the distance between the field and the outer edge of the printed matter must be at least 10 mm. (Please don't forget to take the bleed area into account.)

Examples:
