

As of now Celebrate Records offers you the pressing of vinyls which get your logo by means of a special method. We manufacture a pressing die with the help of your graphic file and can press an arbitrary number of vinyls. Possible are only black/white graphics and fonts. You can use one side of the vinyl for your music and the other for your individual graphic. A quotation can be made only on receipt and check of the desired motive. The price for the engraving depends on the motive. (only vector graphics, no pixel pictures) For the calculation of the total price we use the known pressing prices.

File formats: Vector data as eps or pdf file.

note: We can only use black/white vector graphics (no greyscale)
Black areas will be engraved.
